

*The World Chief Guide*

*Olave Baden-Powell*

*Belt Buckle?*

This is a photo of Lady B-P in Greece in 1963

The belt buckle interested me when Sandy first gave me the site - she usually is shown wearing the Commonwealth Guide buckle

I bought the one below on ebay a few weeks ago but didn't put the two together at first I don't believe it to be from Canada - it could be from Our Cabana in Mexico? It could be from Netherlands as Olave was there in 1962

It just hooks together

There is an 11 year star on the belt so I am not expecting this to have belong to Olave

Please email if you understand why Olave is wearing this belt buckle – Thank you
